Or the twig can be grafted to the branch of another tree (of a different variety even), where it can grow and flourish. In either case, it is an organism with a single parent, and sex has had nothing to do with its making. It is because human beings first encountered this asexual form of reproduction, hi connection with fruit trees probably, that such a one-parent organism of non-sexual origin is called a "twig"; that is, "clone".branch so the grey man had not been able to see him from the waist up."That," she says. Detweiler's possessions were meager. Eight shirts, six pairs of pants, and a light jacket hung in the closet. The shirts and jacket had been altered to allow for the hump. Except for that, the closet was bare. The bathroom contained nothing out of the ordinary?just about the same as mine. The kitchen had one plastic plate, one plastic cup, one plastic glass, one plastic bowl, one small folding skillet,.I scooted up in bed and leaned against the headboard. It was sponsored by the fledgling International Space Agency. Its crew came from all over Earth. Its drive was new, too, and a lot better than the old one. Its mission was to take up the Martian exploration where the first expedition had left off and, incidentally, to recover the remains of the twenty Americans for return to Earth..?Marc Russell."We have been studying this problem for some time now, and we believe there is a solution. But then, why send adult humans at all?" He. spread his arms appealingly. Finally, with ten minutes left on the clock, he'd just up and left, which was not, strictly speaking, a violation. It did imply that some kind of closure had been achieved, which definitely was not the case; he'd panicked, pure and simple. A fiasco from which he'd naturally feared the worst in the form of a letter addressed to Dear Applicant. ("We regret to inform you, etc. . . .")
