"Son-of-a-something, anyway," Anita added. They all laughed.. "Okay. Get back here when you're through." .thee with a work of art fair suitable for the galleries of Eden." .local authorities would probably decline to do battle with him.. "If you say so," Stanislaw said.. "A phase-change, evolving its own new laws," Pernak confirmed, nodding.. Communications between Earth and the Kuan-yin had been continuous since the robot's departure in 2020, although not conducted in real-time because of the widening distance and progressively increasing propagation delay. The first message to the Chironians arrived when the oldest were in their ninth year, which was when the response had arrived from Earth to the Kuan-yin's original signal. Contact had continued ever since with the same built-in nine-year turn-round factor. The Mayflower II, however, was now only ten light-days from Chiron and closing; hence it was acquiring information regarding conditions on the planet that wouldn't reach Earth for years..treasure, and they won't be distracted..-motives and provided a sight-seeing attraction and historical curiosity that every visitor to the area had to ride on at least once. Veronica, a practicing architect, was there with Casey, Adam, and Barbara. Celia had declined to return to the ship but was watching from the home that she shared with Lechat - on the coast; and Wellesley had taken a trip from his farm in Occidena to see his old ship recommissioned and renamed.. "I probably will," the girl declared.. Focused on the chicken, Geneva said, "Easy. I just look around."..objection and their cold-eyed persistence is too intimidating to resist. You see guys like this on the TV..to hear it..have big plans for elevating human civilization to a level that merits Earth's inclusion in a Galactic..Micky figured this approach to hardship and calamity worked best if you'd been shot in the head and if..cool tin- kitchen, in the scarlet light of the retiring sun, Leilani's lace shone as much with enchantment as..Her short-cropped hair glows supernaturally white..there's no relief in even one voice among them?only shirk anxiety, urgency, wariness.. "How long were you up on the Kuan-yin before they moved you down to the surface, Kath?".. "And I'm getting to know them better," Pernak told both of them. Something in his tone made them turn their heads toward him curiously. He spread his hands above his knees. "It's not exactly that kind of trouble Fm bothered about. But if this goes further than that . . . if the Army starts cracking down, and especially if it starts wheeling out the weapons up in the ship, if things like that start getting thrown around, we won't be counting the bodies in ones and twos.".. "And whether it was by design or accident, they've managed to solve a lot of other problems too," Eve said. "Take crime for instance. Theft and greed are impossible, because how can you steal another man's competence? Oh, you could try and fake it, I suppose, but you wouldn't last long with people as discerning as Chironians. They can see through a charlatan as quickly as we can spot ourselves being shortchanged. In fact to 'them that's just what it is. They have their violent moments, sure, but nothing as bad as what's coming in from Africa on the beam right now, or what happened in 2021. But it never turns into a really big problem. There's no motivation for anyone to rally round a would-be Napoleon. He wouldn't have anything to offer that anybody needs."..appealing talk of a miraculous moment of transformation, nothing had happened to pivot Micky toward.. "Except for the shooting.".. "You can't just assume they'll see the whole situation in the Way anyone else would," Anita supplied. "It's not really their fault, since they don't have the right background and all that, but all the same it would be dumb to take risks." "It makes sense, I guess," Paula agreed absently..More disturbing even than the grinning man's obsession with his teeth is the fact that otherwise he..Stanislaw took a long draught from his glass and made a what-the-hell? gesture. "My grandfather stayed alive in the Lean Years by ripping off Fed warehouses and selling the stuff. He could bomb any security routine ever dreamed up. My dad got a job with the Emergency Welfare Office, and between them they wrote two sisters and a brother that I never had into the system and collected the benefits. So life wasn't too bad." He shrugged, almost apologetically. "I guess it got to be kind of a tradition... sort of handed down in the family."..shouting, a couple men cursing, a woman, shakily reciting the Hail Mary prayer over and over. The..The bag was folded and sealed. Noah peeled back the tape, opened the flap, and half extracted a wad..must not allow himself to be rattled by the trucker's latest observation..Sirocco marched smartly through the connecting ramp into the Kuan-yin, where he stepped to the left and snapped to attention while Colman and Hanlon led the guard sections by with rifles sloped precisely on shoulders, free hands swinging crisply\_ as if attached by invisible wires, and boots crashing in unison on the steel floor plates. They fanned out into columns and drew up to halt in lines exactly aligned with the sides of the doorway. Behind them the officers emerged four abreast and divided into two groups to follow Colonel Wesserman to the left and General Portney to the fight..The Chironians were also experimenting with beaming' power in the form of microwaves up to satellites from Port Norday, to be relayed around the planet and redirected to the surface wherever needed. This project was in an early phase and was purely research; if it proved successful, a full-scale ground-station to exploit the technique on a production basis would be built elsewhere..not only solace but also inspiration in this Gen Zen. This evolving Micky returned her aunt's wave.. "I've never heard of him," Micky said..Driscoll thought about it, and in the end was forced to shake his head helplessly. "Not a lot that you'd be interested in, I guess," he confessed..and terrifying than the teeth..lot of time to work its fangs out of me. "Good pup."..rub the backs of their necks, roll their shoulders, arch their spines, and crack their knuckles, they ask one.. "I would prefer not to use that term," the major answered. "The legal ramifications are not for me to comment on. But our own authorities will naturally wish to conduct an inquiry, and the weapons will be needed as evidence."..hope other than his wits and courage.. "I don't think you're taking enough account of the psychological effects on our own people," he said when he finally looked up. "Morale is high now that we're nearly there, and I don't want to spoil it. We've encouraged a popular image of the Chironians that's intended to help our people adopt an assertive role, and we've continually stressed the predominance of younger age

groups there." He shook his head. "Heavy-handed methods are not the way to deal with what would be seen now as essentially a race of children. We'd just be inviting resentment and protest inside our own camp, and that's the last thing we want.."He will. He doesn't like people much, unless they're dead. Continuing to snarl soundlessly at the mirror, the stranger employs a fingernail to pick between two teeth.. plain grub.. He also had rules that he lived by, standards that he wouldn't compromise, and procedures that must be. "Exactly what I was thinking," Wellesley commented, nodding. "And you have to remember that our own people are starting to get restless up here now that their fears have receded. After twenty years, we can't keep them cooped up in the Mayflower II much longer without any obvious reason. They've got accommodations prepared by the space-base at Franklin. I'm inclined to say we should start moving the first batches down. For all we know, the Chironian government may have gone into hiding because they're nervous about our intentions. It might be a good way of enticing them to come out again." "Well- of course." "The Chironians on channel eight are requesting a report, sir.".. disappoint me. I thought you were a good boy, a nice boy, not a smart aleck.".. continue westward, along the base of the highway embankment, until they reach the helicopter. He. "What would you wish them to do?" Kath asked, implying that Colman was correct in at least one of his assumptions without giving any hint of which, She had reacted to the subject with calmness and composure, almost as if she had been expecting it, but there was a firmness in her expression that Colman had not seen on any previous occasion. Her manner conveyed that what was at stake went beyond personal feelings and individual considerations.. "Everyone knows they won't. The whole thing is obviously a device to remove them under a semblance of legality. It's a thinly disguised deportation order.".. And who did those three words bring to mind? Out of control. He is pleased by his ability to function in spite of his fear. He's also pleased by his resourcefulness.. Kath watched in silence for a second or two but for some reason seemed to find the situation amusing. Bernard stared with a mixture of uncertainty and resentment. "I think I know what's going through your mind," she told him. "But don't worry about it. We don't take orders from Farnhill or Merrick here. Hoskins doesn't have a lot of experience with high-flux techniques yet, and Walters is good but careless with details. If the people here were going to accept anybody new, it would be somebody who knew what they were doing and who didn't leave anything to chance, however tiny.".. firmly fixed in carved-out chunks of jawbone, gums attached. Bernard was watching with interest over Stanislaw's shoulder. After being dropped off by Barbara and reentering Phoenix with the others, he had gone home to update Jean on what was happening and then left for the barracks, where Colman had smuggled him in for the briefing. It was just as well that he had; the scheme that Sirocco finally evolved required some familiarity with the Mayflower II's electrical systems, and while Colman had been prepared have a crack at that part of it, Bernard was the obvious. "Whatever they get, they've got it coming," the fat man on the barstool next to him said. "Kids running around wild, breeding like rabbits--It's disgusting. And making bombs Savages is what they are--no better than the Chinese. Kalens has got the right idea. He'll teach 'era some decency and respect." Colman drank up and left.. otherwise dark, silent, and nearly scent-free desert.. The major hesitated for a second, and then said, "Ah in view of the circumstances, it would be better if you permitted us to carry your guns back for you. Would you mind?". "I said you were in too much of a hurry," Jean said to Bernard. "Just think, all that work for nothing. I'll catch up later." You don't want me around?". They already knew that heavy transport movements were scheduled for the day ahead, most of them involved with transporting artillery, armor, and other equipment down from Mayflower II for a build-up inside the shuttle base, which was no doubt why Stern had wanted to seize all of it. It looked as if he intended to move upon Franklin in force,

probably under cover of orbital weapons launched from the ship. With the coup in the Mayflower 11 now accomplished and the ship evidently considered secure, the SDs who had been concentrated there were being moved down to strengthen what was to become a fortified base for surface operations, and some regular units were being moved up to take over duties aloft. Stanislaw had identified an order for C company to embark at 1800 hours that evening for transfer to the Mayflower II, which was just the kind of thing that Sirocco had been hoping for- Sirocco was willing to gamble that with a busy day ahead and lots to do, nobody would have time to question a late change- in the orders.. "I can see your point to a degree," Pernak said eventually. But Lesley was not listening as he gazed down at the platform below, which fanned outward from the arc lights above the lock to become indistinct in the darkness of the antechamber. "That's all I'm prepared to say," she replied. "For now, anyway. I just thought you'd like to hear it." She turned to Jay to change the subject. "Chang told my son Adam about you, and Adam says you ought to drop by sometime, Jay. He lives in Franklin, so it wouldn't be far. Why don't you do that?". the gloom.. Bernard nodded grimly, but his expression did not contain the dismay that it might have. Evidently he had been half-prepared for the news. "Borftein's been checking on that possibility," he said.
