seek to have their way. And you put men who've always had their way together with women who've had more quicksilver than he had, therefore he needed a finder. Finding was a base skill. Gelluk had protected Roke so long and protected it far more closely now. The faintest little sighing tremor ran over the slow, smooth swells. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (24 of 111) [2/5/2004 12:33:30 AM]. She agreed with the others to give him a little house down by the harbor and a job helping the Glade. The Lord and his Lady praised the boy's singing and gave him a tiny gold box with a diamond. "What's that all about?" Golden said to his wife, a rhetorical question. She looked at him and to talk with him. He was, as far as Otter could see, well-meaning and honest. "If you won't. Is it true I do harm being here?" perhaps -- hatched out an eagle. curious promenade went on; in the dark passages, the headless silhouettes of women: the fluff toward me; they had to separate to let me through. I was buffeted. Without realizing it, I stepped. "He tricked and killed a great mage, my master. He's dangerous. I want vengeance. Who did he talk." "It is the lode," the young man said. "Never fear," Diamond said, turned on his heel, and strode out. A string of dried sage caught on his head and trailed after him. After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute. She pondered - conversation with her was often a slow business - and said, "Rose always said I had power, but she didn't know what kind. And I ... I know I do, but I don't know what it is." seemed about to say he did not know, but he knew better than to try to lie to Early. He sighed. "I've been coming doing business here some ten years," he said, looking Irithioth up and down. "A man laughing with excitement." "Hmf," said Golden, chewing. "Left of your own accord? Entirely? With the Master's permission?" As he walked he thought; he thought hard; he recalled. He recalled all he could of matters his teacher had spoken of once only and long ago. Strange matters, so strange he had never known if they were true wizardry or mere witchery, as they said on Roke. Matters he certainly had never heard about on Roke, nor did he ever speak about them there, maybe fearing the Masters would despise him for taking such things seriously, maybe knowing they would not understand them, because they were Gontish matters, truths of Gont. They were not written even in Ard's lore-books, that had come down from the Great Mage Ennas of Perregal. They were all word of mouth. The people of Osskil, Rogma, and Borth are lighter-skinned than others in the Archipelago, and often have brown or even blond hair and light eyes; the men are often bearded. Their language and some of their beliefs are closer to Kargish than to Hardic. These far Northerners probably descend from Kargs who, after settling the four great Eastern lands, sailed back to the West about two thousand years ago. It was peaceful here with the woman and the cat. He had come to a good house. The Osskili use the Hardic runes to write their language, since they trade mostly with Hardic-speaking lands. that bush into the seeming of a tree," he said, and promptly Otter did so. Illusion came so easy. Birch was sending a carter down to Kembermouth with six barrels of ten-year-old Fanian ordered by the wine merchant there. He was glad to send his wizard along as bodyguard, for the wine was valuable, and though the young king was putting things to rights as fast as he could, there were still gangs of robbers on the roads. So Ivory left Westpool on the big wagon pulled by four big carthorses,

jolting slowly along, his legs angling. Down by Jackass Hill an uncouth figure rose up from the wayside and asked the carter for a lift. "I don't know you," the carter said, lifting his whip to warn the stranger off, but Ivory came round the wagon and said, "Let the lad ride, my good man. He'll do no harm while I'm with you."
